PROCESS

CREATE INSTRUCTION SHEET FIRST

Instruction Sheet:

- consists of the steps required to complete the procedure.
- marries the policy and guidelines together.
- serves as your script for the video recording.

GATHER EQUIPMENT

Supplies in one location offer:

- ease of use from the learners.
- ensures company-specific equipment is utilized in practicing.
- separation between client-specific supplies and education-specific.

VIDEO RECORDING

Filming a colleague performing the procedure/task:

- allows all to see task performed per company policy.
- can practice along with the video.
- offers ability to watch specific section just in time training is needed for, and not necessarily needing to watch the whole thing.
- feels real with a colleague demonstrating the skill.
- organically creates buy-in.
